RPS Adeno Detector™ for Pink Eye

CLIA-waived, 10-minute, in-office test used for conjunctivitis (pink eye). Working from an easy-to-collect eye-fluid sample, this test delivers a positive result when the infection is caused by the adenovirus. Knowing the underlying infection source helps clinicians determine the most appropriate treatment.

- Reimbursed
- Proven accuracy
- Reduces antibiotic resistance

Committed to the Health of Your Practice...

Trusted Advisor

Our knowledgeable Sales Consultants offer you the utmost attention and are specially trained to help identify ways to enhance your practice.

Price Integrity

We are highly competitive with our pricing. We strive to maintain prices, develop purchasing plans, and deliver the best value for your practice.

Guaranteed Fast Delivery

*Orders received by 5pm local time are shipped the same day.
Your products arrive within 24–48 hours in most areas.*

Vaccine, Pharmaceutical & Diagnostic Solutions

We have relationships with major manufacturers and can supply every adult and pediatric vaccine recommended by the ACIP.

In addition, we can provide all of your flu vaccine needs with our Worry-Free Guarantee Flu Program!

Our pharmaceutical and diagnostic solutions include brand names as well as a complete line of generics and Henry Schein Brand options for added value.

Practice Solutions

We provide a complete array of services, from technology solutions to practice marketing, that are designed to help you achieve your practice goals.

We d  that!™

MAY IS NATIONAL HEPATITIS AWARENESS MONTH!

About Viral Hepatitis in the United States

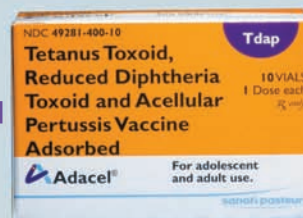

- In 2006, the latest year for which statistics are available, an estimated 32,000 new Hepatitis A Virus infections and 46,000 new Hepatitis B Virus infections occurred in the United States.
- Hepatitis A and Hepatitis B were once far more common in the United States before vaccines to prevent them became available. As a result of vaccinations, new cases of these diseases are now at an all-time low.
- An estimated 800,000–1.4 million people in the United States are living with chronic Hepatitis B Virus infection. Asians, Pacific Islanders, and others who were born in countries with high rates of Hepatitis B are disproportionately affected. *Source: CDC

Despite high rates of reported pertussis in a recent decade, **vaccination** rates remain low.

The ACIP recommends Tdap vaccination for adults and adolescents, including healthcare providers

- Adults 19–64 years of age should receive a single dose of the Tdap booster, especially adults who have or anticipate close contact with infants <12 months of age. When possible, women should receive Tdap before becoming pregnant
- Adolescents 11–18 years of age should receive the Tdap booster, with the preferred age of vaccination at the 11–12 year visit
- Health-care providers in hospitals or ambulatory-care settings who have direct patient contact should receive a single dose of Tdap
- Tdap is preferred to Td for tetanus prophylaxis in wound management Source: www.cdc.gov

There's sharp. Then there's T-Sharp™

New study proves Terumo needles,
on average, are sharpest among
major needle brands tested.*

Terumo-SurGuard2 Safety Syringe with Needle

(315-8299)	3cc 22ga. x 1"
(315-9047)	3cc 23ga. x 1"
(315-9872)	3cc 25ga. x 3/8"
(315-0829)	3cc 25ga. x 1"
(315-9894)	3cc 25ga. x 1 1/8"

Terumo needle sharpness was compared to the leading competitors and, on average, was found to be sharper *in 85% of the direct product comparisons.*

Sharper needles provide patients with a more comfortable injection, thereby providing both patient and clinician with a more satisfying injection experience.

When you think hypodermics...
Think sharp. Think Terumo.

T-SHARP™ Technology is Terumo's proprietary manufacturing process that produces needles of superior sharpness.

*Needle Sharpness Study for Terumo Medical Corporation, by Independent Testing Laboratory, on Insulin, Allergy and Conventional Needles (22-27G); 2008.

T-SHARP is a trademark of Terumo Medical Corporation, Somerset, New Jersey. ® and Terumo are registered trademarks of Terumo Corporation, Tokyo, Japan. ©2010 Terumo Medical Corporation 1/10. All rights reserved.

TERUMO MEDICAL PRODUCTS

Care with Confidence: It's easy with TIDI

Present a professional image, put patients at ease, and provide reliable infection control—all with disposable convenience. Specify single-use products from TIDI Products.

Leak-proof poly backing adds super strength for extra barrier protection and reduced cleanup time.

Convenient perforated tear-off feature keeps changes neat.

Exam Table Paper

The ultimate in strength *and* softness, these table paper options are ideal for any exam, including those that involve fluids.

- Leak-proof poly backing for super strength and fast, easy cleanup
- Crepe and embossed crepe options for extra softness and quiet comfort
- Optional perforations every 30 inches for neat, convenient changing

CODE	DESCRIPTION	COLOR	SIZE	CASE QTY.

what you don't know about vaginitis.

Two of the most common causes of vaginitis are bacterial vaginosis (BV) and trichomoniasis. Both conditions are **treatable and preventable**. Since one-half of all cases are asymptomatic, if you rely on symptoms alone, you are placing your patients at risk for complications.

"We know that BV and trichomoniasis are associated with ascending infection, i.e. PID, endometritis, and postoperative infections. Other preventable health consequences can include increased risks of HIV infection, tubal damage, ectopic pregnancy, infertility, and cervical cancer. Studies show it is imperative that you diagnose and treat early.

"The Screen, Treat, and Prevent approach (STP) is an appropriate paradigm for **reducing suffering, sequelae, costs, and liabilities** caused by reproductive tract infections (RTIs). For the latest methods to Screen, Treat, and Prevent these conditions, call your Henry Schein representative. Your patients deserve it." *

*Dr. James McGregor, MDCM, is a visiting professor of clinical obstetrics and gynecology, division of maternal fetal medicine at the University of Southern California, Keck School of Medicine, Los Angeles, California.

Can you spot the difference between these two kits?

The answer is simple.

You can't... because there is no difference between the two kits. Quidel is committed to ensuring consistency from kit-to-kit and lot-to-lot to provide you with the same high quality products that you have come to trust. The same quality that has made QuickVue the #1 selling hCG test in the professional market.¹

Bayer's CONTOUR® Blood Glucose Meter

- No coding required
- Automatic underfill detection
- Automatic control marking
- Automatic temperature control
- Small sample size (0.6 µL)
- Quick testing time—results in 15 seconds
- Saves information for up to 240 tests with time and date
- Cleared for multiple site testing, which means more choice and flexibility about where you test: finger, forearm, palm, abdomen, or thigh—it's up to you. However, be sure to talk with your healthcare professional first to ensure that alternate site testing is right for you.

Qualitative hCG test for pregnancy testing

Protein-to-creatinine ratio testing

New features ensure

greater data integrity

for more precise clinical information and decision making

The CLINITEK Status+® Analyzer is an easy-to-use, automated analyzer designed to deliver quick, accurate, reliable results.

The analyzer supports a broad menu of tests for point of care urinalysis including: routine urinalysis; albumin to creatinine ratio test; protein to creatinine ratio test; and qualitative hCG test for pregnancy testing. New advanced technology inside the CLINITEK Status+ Analyzer performs automated quality checks on every test, improving data integrity and ensuring the accuracy of results.

CLINITEK Status+ and all associated marks are trademarks of Siemens Healthcare Diagnostics. All other trademarks and brands are the property of their respective owners.

The availability of the products mentioned are subject to local regulatory requirements and therefore varies by country. Please contact your local representative for availability.

SIEMENS

SIEMENS

Multistix® 10LS Pro Reagent Strips

More reliable tool for detecting kidney disease. Test for glucose, ketone, high protein, low protein, specific gravity, creatinine, pH, blood, nitrite, and leukocytes.

- Creatinine ratio to correct for varying urine concentrations
- Decreases false positive protein and false negative protein rates
- For over-65 patients and those with diabetes, CVD, or UTI
- Indication of a dilute requires patient to submit specimen, triggering another urine sample
- Automatic identification of strip configuration for Clinitek® 50 users

#1554

(147-2360) 100/btl

CPT® Codes: 81000/81001/81002/81003/82570QW

SIEMENS

CLINITEK® Microalbumin Test Strip

Test for semiquantitative determination of microalbumin/creatinine in urine. Semiquantitative tests for protein (2–4 mg/dl) and creatinine. Includes an A:C ratio result.

- Dip-and-read test for albumin & creatinine in urine
- Determines an A:C ratio for greatest accuracy
- Use a random urine sample—reduces need for a 24-hour collection
- Timeframe: 60 seconds
- CLIA waived on CT Status Analyzer

#2083

(147-4712) 25/box

CPT® Codes: 82044/82570

SIEMENS

Clinitek® hCG Pregnancy Test

hCG test cassette for use with the Clinitek Status® Analyzer. Quick, reliable, instrument-read results eliminate interpretation and provide accurate results for your patient.

- 99% accuracy
- Sensitivity equal to or greater than 25 mIU/mL
- Time frame: 5 minutes
- Room-temperature storage
- CLIA waived

(186-4896) 25/box

CPT Code: 84703QW

SIEMENS

Multistix® 10 SG

Test for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes in urine.

#2161

(147-5913) 100/btl

CPT® Codes: 81000/81001/81002/81003

HemoSense

INRatio2® Monitor

Allows you to obtain a Prothrombin Time (PT) and International Normalized Ratio (INR) result using 1 drop of blood from a fingerstick.

- CLIA waived
- Easy to use
- Single-button operation
- 1-step auto turn-on with strip insertion
- Larger LCD screen and easy-to-read digits
- Small, 1-drop (15µL), sample size
- Wider test-strip area for easier sample application
- Test results in under 1 minute
- Test strips do not require refrigeration
- Test strips are individually wrapped, stored at room temperature
- 2-channel, on-board quality control runs on every test
- No need for external liquid quality control or extra strips

**BIOSITE**

NEW DIMENSIONS IN DIAGNOSIS®

Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Customizable test panels
- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

#55070MP

(704-8205).....ea

BIOSITE

NEW DIMENSIONS IN DIAGNOSIS®

Triage® BNP Test

The only CLIA-waived blood test measuring B-type natriuretic peptide (BNP). Cardiac hormone produced by the heart ventricles in response to ventricular volume expansion and pressure overload. CLIA waived for use with whole-blood samples.

Rapid, objective point-of-care immunoassay is used:

- As an aid in the diagnosis and severity of CHF
- For the risk stratification of patients with ACS and HF

**CHOLESTECH****Cholestech LDX® System**

Complete Lipid Profile, Glucose Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while

patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA-waived**
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

#10-959, Analyzer

(738-2917).....ea

Contains: analyzer, printer, power supply, starter pack, optics check cassette, printer cable, user's manual, procedure manual & training video. Start pack contains 200 lancets, 200 capillary tubes, 200 capillary plungers, Minipette pipette, 50 pipette tips, accessory tray & fingerstick tip pad.

A Cool Way to Remove Common Warts & Benign Lesions

Histofreezer® Portable Cryosurgical System¹

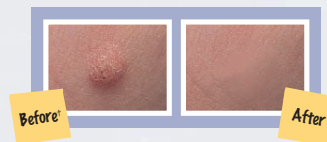

- Ultra-portable, one-handed operation, and treatment takes less than 60 seconds
- Clinically-proven results
- Results are comparable to liquid nitrogen with a lower risk of scarring
- Requires no bulky equipment or large investment, unlike liquid nitrogen
- Histofreezer is CFC-Free and ozone-friendly
- No Freeze-Thaw-Freeze procedure required
- No messy or leaky cones
- Economically priced, widely reimbursable and offers a high ROI

HISTOFREEZER — CLINICALLY PROVEN, SAFE AND EASY-TO-USE

For more information about Histofreezer,
please visit www.Histofreezer.com

¹Occasionally, multiple treatments spaced apart by two weeks may be required.

100% Impressive.

Internal and external indicators only change color when all 3 criteria for sterility have been met –

- Time
- Temperature
- Presence of steam

100% Crosstex®!

Sure-Check® – the **better** way to sterilize.

When you need to be sure, it needs to be Crosstex. That's why Crosstex offers a **better** way. Sure-Check Sterilization Pouches with multi-parameter indicators meet all three criteria for sterilization—time, temperature and presence of steam.*

That's 100% impressive! 100% Crosstex!

Crosstex Sure-Check Sterilization Pouches also:

- ✓ Give users the assurance of confirming all three sterilization parameters.
- ✓ Meet ISO and CDC Infection Control Guidelines for effective sterilization.
- ✓ Include both an **INTERNAL** and **EXTERNAL** multi-parameter indicator.
- ✓ Eliminate the extra step of adding a separate multi-parameter indicator to each pouch.
- ✓ Provide the highest level of sterility assurance—when used in conjunction with weekly biological indicators.

CoFlex® AFD Absorbent Foam Dressings

This all-in-one foam-pad dressing and cohesive bandage contains 3 layers for easy application and effective wound management. CoFlex LF2 cellular-foam cohesive bandage is comfortable and lightweight for prolonged wear and increased patient compliance. Inner waterproof film prevents leakage, drying out, and contamination. Absorbent foam pad draws in exudate while keeping the wound site moist and clean.

(900-4319)
Contains: 4 strips per envelope.

**Abdominal (ABD) Pads**

Features extra absorbency and wicking. Medline's super absorbent abdominal pads feature a soft nonwoven outer layer that quickly wicks fluid to a cellulose center. This thick layer of cellulose quickly absorbs and disperses fluids laterally to prevent pooling. Hydrophobic back impedes strikethrough and all edges are sealed to prevent linting. Latex-free.

Sustainability is in our hands.

At Ansell, we are committed to being green.

Policies that protect

At Ansell, we're delivering long-term sustainable returns through initiatives that help protect and minimize the impact of our operations on the environment.

Here's what we are doing to make a positive impact on the world around us:

- Following sound environmental practices through all our activities, products and services
- Managing operations so they are energy-efficient and cost-effective, reducing adverse environmental effects
- Training employees to increase their environmental awareness and responsibility
- Minimizing the use of materials, supplies and energy in all areas
- Recycling materials where practical
- Setting and continually renewing objectives and targets for pollution prevention
- Promoting the adoption of similar environmental protection policies by suppliers, vendors and contractors

Ansell

Everything you touch...we touch.

Now featuring increased gloves per box to help you go **GREEN**

Increased gloves per box means less packaging waste into the environment, fewer box changes means a more productive office, and the new box fits in current box holders.

Indermil® Tissue Adhesive A Fast and Easy Solution

Indermil® tissue adhesive is a ready-to-use, fast setting cyanoacrylate based product used for the closure of topical skin incisions and trauma induced lacerations in areas of low skin tension with easily approximated wound edges.*

Indermil® Tissue Adhesive Key Features and Benefits

- **Less Traumatic with Excellent Cosmesis**
Eliminates skin suturing and need for suture removal
- **Ease of use**
Ready-to-use; requires single application with 30 second set time
- **Cost-effective**
Non-clogging tip designed for multiple use in a single case.
- **Controlled "no touch" application**
Only light squeezing required to apply product "sparingly."
No applicator tip contact with wound is necessary.

Times Change

MetriCide OPA Plus outperformed the other OPA brand in a reuse stability study, performing 32 more reprocessing cycles when used in an automated endoscopic reprocessor.*

Order your copy of the comparison study by calling 800.841.1428 or download it at metrex.com/upgrade.

*Data on file. Metrex® Research.

©2010 Metrex® Research. Metrex, MetriCide, EmPower, and MetriZyme are registered Trademarks of Metrex® Research.

So Do Standards.

Upgrade to MetriCide® OPA Plus:
We've Raised the Bar on High Level Disinfection.

With an advanced *ortho*-Phthalaldehyde (OPA) formula, MetriCide OPA Plus remains effective for 40% more reprocessing cycles than the other OPA brand. You'll feel secure knowing that a slight increase in strength makes a big difference in performance—without decreasing materials compatibility or safety.

One Source—Complete Solution

Metrex offers you the convenience of a fully integrated line of instrument reprocessing solutions, including our leading enzymatic/detergent cleaners: EmPower® and MetriZyme®.

Proof That You Can Find Surgical Accessories With Uncompromising Performance

Medline's array of surgery packs, fan-fold drapes, table sheets and gowns are proof positive that you can find surgical accessories with uncompromising performance.

Consider Medline's:

Latex-free Basic Pack I:

A convenient pack with basics. Contains: 1 reinforced poly table cover; 1 mayo stand cover; 4 utility drapes with tape; a paper suture bag; 1 half drape; 1 three-quarter drape; 2 hand towels. Get the full specifications – ask for **678-6498**.

Drape Sheets & Table Covers:

All latex-free, choose medium sized fan-fold sheets at 40" x 70" or three-quarter sized sheets at 53" x 77". Our table covers are reinforced; one measures 50" x 90". Choose items **831-0310**; **831-0335**; or **104-1095** respectively.

Aurora™ Surgical Gowns:

Made with Supre[®] medical fabric from DuPont[®], these latex-free gowns provide superior barrier protection and a roomier fit. Breathable and comfortable with low-linting qualities to help reduce the risk of introducing particles into the O.R. Ask for more information on items: **678-7294 & 831-0193**.*

Medline's surgical accessories are latex-free.

Proxima

*Gowns meet the Standard for Flammability of Clothing Textiles CPSC 16 CFR Part 1610.

Kill the H1N1 Virus and more!

Quinton® Eclipse™ Premier ECGs

English, 115 V, with AHA Cable, Disposable Electrodes and Clips

High performance with wireless communications. Receive orders, instantly transmit test results, and make a diagnosis quicker with its superior wired and wireless network data-sharing capabilities. Workload is further streamlined with easy-to-use barcode capabilities that ensure patient identification and documentation is consistent, accurate, and reliable.

- High performance with wireless communications
- EMR connectivity via HeartCentrix® by Cardiac Science™
- Simultaneous 12-lead acquisition
- 12-lead preview on color-active matrix display
- Stores up to 100 ECGs
- Optional real-time data sharing with wireless Ethernet
- Optional bar-code scanner ensures accurate patient ID

BURDICK

Assurance 50® "Fade-Resistant" Papers

Single Channel, Red Grid
Unique line of thermal recording media. Look and feel is similar to standard thermal charts, but difference is in acid-free base paper and patented chemical thermal coatings. Combination of these 2 elements works to deliver 50 years of ECG image life without worry or fading. Thermal chart contaminants such as UV light, PVC, alcohol, adhesive tape, and electrode creams are no longer of concern. No special care or handling is required. Guarantee clear, indelible original records, year after year.

No cords, a brighter, whiter light and greater comfort for your patients.

Introducing the new Welch Allyn 590 Series KleenSpec® Vaginal Speculum with innovative Cordless Illumination System—an advancement in Women's Health that's nothing short of brilliant.

The Welch Allyn KleenSpec Vaginal Speculum and Illumination System has been totally redesigned to provide improved visualization of the exam area and the enhanced freedom of movement you need to perform a pelvic exam. And talk about brilliant innovations, the new cordless illumination system provides a whiter, brighter light—without a bulb, so you'll never have to worry about lamp replacement.

New 590 Series KleenSpec Vaginal Speculum

- New wider handle and flexible yoke for improved ergonomics, balance, maneuverability and flexibility
- Superior illumination provides a homogeneous spot and eliminates glare back
- Smooth, molded acrylic will not pinch or bind patient tissue
- Single-use speculum eliminates reprocessing and reduces chance of cross-contamination
- Compatible with the current and new illumination system

New KleenSpec Disposable Vaginal Specula 790 Series Illumination System

- Advanced LED light source for better visualization of the exam area
- No cord to get in the way or break during procedures
- Continuous on time of 80 minutes, recharge time of six hours with lithium ion battery technology
- Automatic on-off system—insert the specula for illumination and remove to turn light off

For more information about the Welch Allyn KleenSpec Disposable Vaginal Specula and Cordless Illumination System, please contact your Henry Schein sales representative or call Welch Allyn customer service at 1.800.535.6663 opt 3.

WelchAllyn®

Advancing Frontline Care™

WelchAllyn**PanOptic™
Ophthalmoscope
Heads**

Ergonomically designed for maximum comfort, balance, and access to controls. Aperture dial allows clinician to select micro, small, and large spot sizes. Also includes red-free filter and slit aperture. Dynamic Focusing Wheel adjusts focus in a continuous, smooth action for more precise control and optimal view. Available focusing range is from -20 to +20 diopters. Patented Glare Extinguishment System prevents interference from unwanted glare and reflections. Patented Axial PointSource Optics makes it easy to enter undilated pupils, and provides a 25° field of view, resulting in view of fundus that's 5 times larger than that of a standard ophthalmoscope in an undilated eye. Halogen HPX™ lamp provides whiter, brighter light. Cleanable, reusable eyecup establishes and maintains proper viewing distance, provides image stability, serves as a pivoting point for panning around the retina, helps with orientation, and screens out ambient light. Compatible with any standard 3½-V power source including desk charger handles, convertible battery handles, wall transformers, and lithium-ion Power Handle.

WelchAllyn**SureTemp® Plus 690
Electronic
Thermometer**

Combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. Takes fast, 4–6-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 15-second adult axillary temperatures.

- Accurate to within +/- 0.2°F (0.1°C)
- Interchangeable, removable probe wells to reduce the risk of cross contamination
- Large LCD that can display temperatures in Fahrenheit or Celsius
- Last-temperature recall
- Mode selection and recall buttons
- Four different temperature modes
- Convenient storage for 25 probe covers
- Takes about 6,000 readings on 3 AA batteries (included)

Precision™ Series Aneroid Sphygmomanometer–Adult

Economically priced aneroid includes standard air release valve, inflation bulb, nylon calibrated cuff and zippered carrying case. 10-year calibration warranty on gauge. Cuff Size: 11"–16.4".

Cuff Color: Blue

(151-0300)Each

Cry-Ac®Tracker®

The Cry-Ac®Tracker® is a device that measures the temperature of the skin when spraying Liquid Nitrogen via the Cry-Ac® delivery system to the selected skin lesion using the latest Infrared Sensing technology. The operator can set the Cry-Ac®Tracker® to indicate when a predetermined freeze temperature has been achieved at the lesion.

For More Precise & Effective Cryosurgery

- Consistently achieve desired skin temperature and freeze time.
- More accurately perform cryosurgery.
- Know how long to spray and when to stop.
- Quickly train others to reliably do cryosurgery.
- Achieve optimum results for patients.
- Temperature Monitoring
- Infrared light sensor continuously and safely monitors skin temperature at freeze site.
- Color-coded lights shine on lesion to indicate how fast skin temperature is decreasing and when desired skin temperature is reached.

UNICO®

IP730 Microscope

Designed to provide crisp, clear imaging on a versatile and ergonomic platform.

Available with 30° inclined Binocular or Trinocular heads.

Features Seidentopf optical design with 55–75mm interpupillary distance adjustment. Both heads rotate 360° and lock in place with a thumbscrew. Eyepieces are standard with 10X 22-mm extra-widefield eyepieces for viewing comfort and clarity.

Available with a variety of optics and configuration choices:

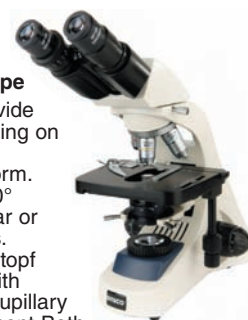

- **HEADS:** Binocular or Trinocular heads. Featuring 55-75mm interpupillary distance adjustment. Both heads rotate 360°, one eye tube with diopter adjustment
- **EYEPIECES:** With 10X, 20mm FN Extra Widefield
- **STAGE:** Graduated Mechanical Stage with low-position coaxial X-Y controls. Ball-bearing movement allows for smooth, precise adjustments. Stage size is 180mm x 150mm and the range of X-Y stage movement is 80mm x 50mm
- **OBJECTIVES:** All models are equipped with either achromatic or plan 4X, 10X, 40XR and 100XR (Oil) objectives
- **CONDENSER:** Focusable and centerable N.A. 1.25 Abbe condenser with graduated iris diaphragm and filter holder
- **ILLUMINATION:** Koehler illumination with field iris diaphragm featuring a 6 V/20 W Halogen light source. Variable intensity rheostat wheel is located on the left side of the base
- **ELECTRICAL:** 110 V-60 Hz to 240 V-50 Hz
- Complete with dust cover, blue filter, 2 extra fuses and operation manual
- 5-year limited warranty, 1 year on electrical system; excludes bulbs and fuses

i-STAT® 1 Handheld System

Performs a comprehensive panel of critical tests. Utilizing self-contained test cartridges, along with the Precision PCx™ and Precision PCx Plus™ glucose test strips, the i-STAT 1 system delivers lab-accurate testing for blood gases, electrolytes, chemistries, coagulation, hematology, glucose, and cardiac markers (cTnI).

It is portable, reliable, and includes these important features:

- Easy to use: Cartridges are self-contained and the system is simple to learn and operate
- Lab-accurate results: Advanced biosensor technology and real-time quality assurance provides extremely accurate testing
- Small sample size: Just a few drops of blood per cartridge
- Ready when you need it: Test results in as little as 2 minutes

Introducing The Allscripts Stimulus Program™: Meaningful Use Guaranteed!

The Time is NOW...The Choice is Allscripts.

*Join the 160,000 Physicians using the Allscripts Solutions today!
The Allscripts Stimulus Program combines 3 key elements to get you started.*

1. The Right EHR

Our EHR solutions are designed to meet the needs of your practice, regardless of size or specialty.

2. The Right Guarantee

Our EHR solutions will meet the criteria for EHR certification. If not, we'll credit you up to 12 months of support. Guaranteed.

3. The Right Price

Start now, pay later — \$0 for software for the first 6 months. Then pay for your solution with affordable monthly payments over time.

The Allscripts Stimulus Program follows the Obama Administration's release of its long-awaited criteria for determining which Electronic Health Record (EHR) systems will qualify physicians for between \$44,000 and \$64,000 in Medicare and Medicaid incentive payments under the American Recovery and Reinvestment Act (ARRA). The law requires physicians to demonstrate their "meaningful use" of an EHR before they can claim the stimulus incentives, which first become available in 2011.

Call **NOW** to learn the latest on Meaningful Use Guidelines
and how to request a Free EHR ROI Assessment.

Phone: **1-866-530-3540** Email: **Allscripts@henryschein.com**
Visit: **www.henryschein.com/allscripts**
